## WE HEREBY DECLARE THAT THE TUBE COMPOUND OF FOLLOWING HOSES

## // 4680H

## Liquid Food S&D - PVC - Heavy Duty FDA EU 10/2011 A+B+C - AS 2070

- √ We hereby declare that the ALFAGOMMA hose 4680H Liquid Food S&D PVC Heavy Duty is suitable to be used with the following products:
  - Aqueous food;
  - ◆ Moist food products with pH> 4,5 and food products containing alcohol up to 10%;
  - Acid food products with pH < 4,5 Acid food products with pH < 4,5;
  - Food products containing alcohol up to 20% and those foods which contain a relevant amount of organic ingredients that render the food more lipophilic;

In particular the hose is suitable for contact with aqueous foods, acid and alcohols (up to 20%) for which there are simulants A,B and C for repeated contact of up to 10 days at a maximum temperature of 40°C.

(For the designation of the food we chose the product or classes from the group categories listed in Directive 85/572 /EEC), adopted by the Ministerial Decree No. 220 of 26/04/1993 and later updates and amendments – see note at the end of the document on the Article 23 of Reg (EU) No. 10/2011).

In compliance with the following EU legislations:

- Regulation (EC) No. 1935/2004;
- Regulation (EU) No. 10/2011 and subsequent updates and amendments;
- Regulation (EC) No. 2023/2006;

The hoses contains the following substances, called "dual use", governed by Regulation (EC) n° 1333/2008 and 1334/2008 and subsequent amendments:

- E479b Thermally Oxidised Soya Bean Oil Interacted with Mono and Diglycerides of Fatty Acids;
- E470a Sodium, Potassium and Calcium Salts of Fatty Acids;
- E914 Oxidized Polyethylene wax;
- E905 Microcrystalline wax.

The above hose is manufactured exclusively with substances (monomers, pigments and additives) listed in the positive lists contemplated by the European Reg. 10/2011. The above hose contains substances subjected to restrictions in the afore mentioned laws which are listed below:

Soybean oil epoxidised88460008013-07-8SML = 60.0 mg/Kggaskets used to seal glass jars contain infant formulae and follow-on formulae as defined by Directive 2006/141/EC processed cereal-based foods and ba foods for infants and young children as	Name	No. Ref. # **ALFAGOMMA**

The overall migration limit, together with other specific restrictions to which the monomers and / or additives present in the material may be subjected, are met in the above conditions of use.

This declaration is addressed to all companies, organizations, users who use the above mentioned product within the fields of application defined in the declaration itself.

The user of the hose intended for contact with food is responsible for informing the company in writing of any restriction due to the characteristics of the ingredients (presence of additives and flavourings) of the food product to be transported.

This declaration is valid from the date above and will be substituted in advance in the event of changes in production / formulation of the material or if the legislative references are modified and updated so as to require a new check for compliance.
