

ALFA WATER BARRIER

**THE PORTABLE FLOOD-CONTROL SOLUTION SPECIALLY DESIGNED
TO USE THE WATER YOU'RE WORKING AGAINST TO DO THE WORK FOR YOU**

ALFA WATER BARRIER

ALFA WATER BARRIER is a water-inflated temporary dam developed for worksites dewatering and water deflecting. Advantages:

- ▲ **Complete system** with fill/drain fittings, hose connectors and closed ends which **does not require** the use of additional devices to complete the installation or to ensure the stability
- ▲ **Lightweight** and **ease of handling** allow quick deployment and water inflation
- ▲ **Rapid draining** and **removal** ensure minimum amount of labour
- ▲ **Safety factor** against rolling or sliding is **10 times greater** than comparably priced single-tube systems
- ▲ **High-quality manufacturing materials** are specially developed for this product and the portable barrier is manufactured under strict adherence to the **ISO 9001 Quality Assurance Standard**
- ▲ **Environmental impact is minimized** by the use of the only present water supply to create a **stable** and **reliable barrier**
- ▲ **ALFA WATER BARRIER is suitable** for worksite dewatering and flood protection **in waters up to 6' deep**
- ▲ **36"x50' ALFA WATER BARRIER replaces 1500 sandbags**

Lengths: double or triple barriers up to 100' long

Water inflated heights: from 36" to 96"

Stabilizing panels: single or double panel

Port connections: multiple, 2" & 3" FNPT

Available colours: red, yellow, blue and green.

PRODUCT	DESCRIPTION
AG3650	36"x50' Double barrier Single stabilizing panel (3x2" and 1x3" FNPT flanges)
AG36100	36"x100' Double barrier Single stabilizing panel (3x2" and 1x3" FNPT flanges)
AG4850	48"x50' Double barrier Single stabilizing panel (3x2" and 1x3" FNPT flanges)
AG3650	36"x50' Triple barrier Two stabilizing panels (3x2" and 1x3" FNPT flanges)
AG36100	36"x100' Triple barrier Two stabilizing panels (3x2" and 1x3" FNPT flanges)
AG4850	48"x50' Triple barrier Two stabilizing panels (3x2" and 1x3" FNPT flanges)
AG6050	60"x50' Triple barrier Two stabilizing panels (3x2" and 1x3" FNPT flanges)
AG7250	72"x50' Triple barrier Two stabilizing panels (3x2" and 2x3" FNPT flanges)
AG9650	96"x50' Triple barrier Two stabilizing panels (3x2" and 2x3" FNPT flanges)
